CleverLink at CeBit Australia Exhibition 2003

International Information and Communication Technology Exhibition

Darling Harbour Exhibition Centre 6 – 8 May 2003

CleverLink proudly exhibited at CeBit again this year on the 7th of May. We participated in conjunction with AIIA (Australian Information Industry Association), having a booth within their section of the exhibition.

This year we displayed our Client's Web Sites, our Graphic Design Work, IT Training Schedule, Internet Access and Image Software. We had many enquires regarding our services and products, with many people asking to be contacted after the exhibition.

On the day the booth was manned by Camtu Pham, Kian Kok Lau & Elysia Viles, with some family and friends stopping by for a quick chat!

Elysia, Camtu & Kian

Camtu & the event organiser, Warwick Hamilton

Visitors who left their contact details with CleverLink throughout the day were entered into a prize draw.

The draw took place at 5.45 pm on the day by Margaret Ryan, Executive Director of Western Sydney IT Cluster.

The lucky winner was Charles E Fenton, Technical Manager for KLINGSPOR Australia Pty Ltd, who received a tin of cookies.
