Internet & Technology Services

'Linking technological solutions to your needs'

CeBit Australia International Information and Communication Technology Exhibition Darling Harbour Exhibition Centre 28 – 30 May 2002

CleverLink Internet & Technology Services participated in the International Information and Communication Technology Exhibition on Thursday 30 May 2002. The organiser told CleverLink that their business was the only IT firm from the south coast.

Camtu talking with a visitor

CeBit is the world's largest and most influential information and communications tradeshow. This year, CeBit Australia brought technology from over 300 organisations around the country and also from UK, Japan, India, Canada, Germany and NZ. According to CeBIT, the three-day event attracted more than 15,000 people.

Camtu Pham, the managing director of CleverLink was invited by the Australian Information Industry Association (AIIA) to participate in this special event. CleverLink welcomed this opportunity, as the business is ready to go beyond the regional level. This is the first time that CleverLink has participated in an international tradeshow and our team enjoyed the experience and will be ready for the next one soon.

On the day Camtu Pham, Kian Kok Lau, Elysia Viles and Bryan Wan manned the booth in which we displayed our database design capabilities and products, as well as all our

client's websites in an onscreen display.

We ran a prize draw of a box of chocolates and a bottle of wine for those people that left their details with us on the feedback form.

The prize being drawn by Fleur Bayley, AIIA

The lucky winner was **Mr Peter Meyer**, Architect from Seasound Pty Ltd in Roseville (Sydney).

CleverLink thanks all members of team and the staff at CeBit and AIIA for putting together the exhibition. We also thank all visitors for visiting us on the day. Finally but very importantly, we would like to thank all our clients because without the work we have done for them; it is hard to put together an exhibition. Many visitors have seen our client's Web sites and projects. CleverLink is certainly very proud of this.
