

FREELANCE IT TRAINERS, CleverLink

**Illawarra, Parramatta, Canberra, Shoalhaven, Shellharbour
and online**

General information:

Are you are a motivated technology trainer with Internet related skills and experience? Would you like to work with one of the most respected IT companies in Australia? It is time to put your skills into a meaningful project and help small businesses get online, reap the benefits of online technology and become Internet savvy!

CleverLink is looking for a number of **experienced and enthusiastic** IT trainers to help us deliver 70 training courses to small businesses from June 2010 to April 2011. View the full course list here [Courses and Zone List](#).

The successful contractors will conduct workshops that help attendees become familiar with certain areas of the internet and business-appropriate online skills. We are targeting five regions: Illawarra, Parramatta, Canberra, Shoalhaven and Southern Highlands. Trainers will coordinate off-site and online training programs which effectively support the goals and objectives of CleverLink.

Areas of expertise and experience we are looking for include:

- 1) Web 2.0 & Web 3.0
- 2) Internet Marketing: SEO, Social networks, databases, etc
- 3) Website development and maintenance
- 4) E-Commerce facilities
- 5) Advanced Online tools such as CRM, CMS, etc

Criteria:

We are looking for flexible freelance trainers with a combination of the following skills:

Essential criteria. You must:

- Have a tertiary qualification in E-commerce, Computing Science, Technology, education or related studies.
- Have experience in teaching adults.
- Have strong presentation skills with the ability to engage audiences and maintain audience interest.
- Have strong knowledge of and experience using the Internet, SEO and social networks.
- Have a desire to share with others what you know. Have a passion for teaching, learning, and a 'warm' personality.
- Have strong people skills and be able to tailor the same message to different levels and learning styles.
- Able to explain technical materials in plain English and in simple terms.
- Have a firm grasp of current technological applications.
- Have impeccable grooming and personal presentation and make a good impression.
- Generate enthusiasm for the topic and inspire application.
- Possess strong motivation, initiative and attention to detail and exhibit a friendly and customer focused attitude.

PO Box 125 Corrimal, NSW, AUSTRALIA

Desirable skills/experience:

- Graphic design and Web development skills.
- Technical skills such as programming, databases, operating systems, help desk, CMS, CRM and other online tools.
- Experience in Web development tools such as Dreamweaver, flash, CS4, etc.
- Cert IV in Training and Workplace Assessment.
- Coaching qualifications will be highly-regarded.
- High-level corporate training track record.

Responsibilities:

Your primary role is to conduct training sessions that will help small businesses understand the benefits technology and the Internet can bring to their business. You will show them how to utilise technology to their benefit and motivate them to take action. Some training sessions will be in seminar format for larger audiences while others will be hands-on workshop style courses for smaller groups.

Training materials and workbooks will be designed by our internal team; however you are invited to contribute to the material and to adjust it to suit your style and your particular area of technological expertise (You are also invited to use your online skills to promote the courses to your own network online and offline).

Opportunities for the right IT trainers are available in the Illawarra, Parramatta, Canberra, Shoalhaven and Southern Highlands. Experts outside these regions are also invited to apply as some courses will be conducted online.

As stated above, positions are available from June 2010 – April 2011. Be aware that while further opportunities may be available after this period, we cannot give a guarantee at this stage.
